

Learn Italian With A Native

This is a modern language course based on the theory that the best way to learn a foreign language is to learn it as a child learns his own language. With this method, advocated by MIT linguistic professor Noam Chomsky, you will soon learn to express many concepts, understand vocabulary and ask many questions, even before you learn the grammatical implications of what you are saying. You use the right side of your brain and have fun learning.

Learn Italian and truly enjoy the unique and ancient culture more.

Gianfranco Russu, President of The Bella Italia Center, is a native of Genova, Italy, and holds a diploma in Business Administration & Accountancy granted by the Italian Ministry of Education. He has completed a three year study at the University of Foreign Languages and Literatures in Genova and taught business English in Italy while working as a free-lance translator & interpreter. Gianfranco was a software translator for JD Edwards and conducted cross cultural informational seminars for The Prudential for executives of American companies working in Italy. While Disney Corporation was building 2 ships, The Magic and The Wonder, in Venice, Italy, Gianfranco facilitated business relationships between American and Italian Executives. He provided simultaneous interpretation services for Pope John Paul II's Denver visit for World Youth day. He wrote the language textbook "Learn Italian with a Native" and teaches all levels of Italian. He conducts travel and corporate seminars monthly.
